

Aim: To write a program to input char from Keyboard and Analyse according to give condition

Source Code:

```
//ques 35 pg 246
#include<conio.h>
#include<iostream.h>
void main()
{
    clrscr();
    char ch;
    cout<<"Enter the Character :";
    cin>>ch;
    (ch>=65&&ch<=90 || ch>=97&&ch<=122)?((ch>=65&&ch<=90)?
    cout<<"\nUpper case : "<<ch<<"\n lower case : "<<(char)(ch+32):
    cout<<"\nlower case : "<<ch<<"\n upper case : "<<(char)(ch-32)):
    cout<<"\nNot a Character : "<<ch;
    getch();
}
```

Output:
